

Re: **The real cause of Monday's mask-related shooting**

06/15/2021

Dear GBI:

As a concerned citizen, I'm writing to you from Oregon in the interest of making sure that you don't go full steam ahead to investigate everything \*except\* the most obvious explanation for the mask-related shooting. You're under a lot of political pressure, whether or not you see it yet, to studiously avoid the truth here.

On April 27<sup>th</sup>, vaccine “scientist” Peter Hotez wrote in Nature, one of the most supposedly-prestigious scientific journals in the world:

“...Efforts must expand into the realm of cyber security, law enforcement, public education and international relations. A high-level inter-agency task force reporting to the UN secretary-general could assess the full impact of anti-vaccine aggression, and propose tough, balanced measures. The task force should include experts who have tackled complex global threats such as terrorism, cyber attacks and nuclear armament, because anti-science is now approaching similar levels of peril. It is becoming increasingly clear that advancing immunization requires a counteroffensive.”

(<https://www.nature.com/articles/d41586-021-01084-x>)

He was saying that anti-vaccine activists are aggressive (not true), that we are terrorists (also not true) and that the UN secretary-general should be in charge (treasonous). We live in the US, not the UN. If you want to live in the UN, it means that you think we'd be better off if there were no borders.

So after seeing that opinion piece, I knew that criminal elements within high levels of government would soon endeavor to produce more violent incidents than they already have in order to make his opinion piece seem to have a lot of predictive power. The simple truth is that the intelligence community does have a number of individuals under its control who are victims of a program that followed on the heels of MK Ultra and other programs similar to MK Ultra; those are the people, by and large, who have been doing the recent mass shootings and the like.

GBI can't deny that MK Ultra and its sister programs existed. They should be aware that nobody has to abduct anyone anymore and give them drugs, electroshock torture, sensory deprivation and tape loops to make them sleeper assassins; the technology is now to the point where it can be done remotely, through electronic means, without the consent of the victim. Just ask Nick Begich, MD. (<https://earthpulse.com/>) As part of your investigation for this case, you should have him testify for the GBI on his deep knowledge of these technologies. He has an extensive body of writing about this topic, covering work such as that of Dr. Jose Delgado, who was able (decades ago) to stop a charging bull through electronic means. The microwave hearing effect is one particularly well-documented means that messages can be placed into the mind of the target. The result of all of these techniques is that a person can, within a short time, be tortured at a distance until they break. Then they're told, “Such-and-such a person/group is behind your torture. You have to go do this and that.” Then they do it.

What would be the motive of the mass shootings we've seen, on the part of those within the intelligence community who have been organizing them? Total gun confiscation is the goal, and they aim at achieving it through incrementalism, if necessary. The technique is to pull on people's heartstrings

until Americans would demand, “We want a ban on 'assault' rifles!” Then, in the next week/month/year, the social engineers within high levels of government would just start having their sleeper assassins do mass shootings with semi-auto handguns, to create a public outcry to ban those. Then they'd do the same with hunting rifles, by getting their human assets (not agents, but assets) to carry out more shootings with hunting rifles in the manner of repeated sniper attacks. Then they would have their total gun ban, as planned from the start. This isn't nice to talk about, but it is the simple truth. Just yesterday I told someone that we should pray that there won't be attacks like this blamed on anti-vaxxers. I said, “I think their plan is to stage further mass shootings and say that anti-vaccine people did it.” Then I found out this morning that there was an attack which GBI is now working on figuring out.

Former CBS journalist Sharyl Attkisson has just released a new book about the lies of the media from which she emerged. She, like many others before her, has shown that the CIA's Operation Mockingbird infiltrated and achieved control of the media decades ago. Do you really think they would not continue that project (perhaps under a different name) in more recent years? So whenever the GBI investigates anything of any national or international importance, they should always ask, “What, exactly, is the social engineering objective of this news story? What does the intelligence community want Americans to believe about this news story?” There you'll find your honest answer.

On May 26<sup>th</sup>, we learned (<https://www.newsweek.com/covid-protest-drives-through-site-1595183>) that a woman was arrested for driving her car into a vaccination tent, reportedly at a high speed, while yelling “No vaccine!” This would seem to confirm the assertion made by Peter Hotez that anti-vaccine people are terrorists, which had no foundation at the time it was written. Chances are, the media will soon have him on to ask, “How did you predict this?”

We should assume that the woman who was arrested for doing that was, most likely, just another Targeted Individual (TI). “TI,” by the way, is the commonly-used term for someone who has been subjected to remote no-touch torture at the hands of the intelligence community. (It was concluded that the Cuban diplomats were harmed by microwave weaponry, though apparently we're always supposed to think that \*only\* foreign governments have or use such technology, and it's supposed to be a sacred obligation, it appears in the media, not to ever ask if the US government has ever done such things to anyone.)

So don't be naive, folks. You shouldn't exclude the likeliest explanation for what happened in Monday's shooting: the man may have been a targeted individual, someone being exploited as a human asset for the purpose of advancing the narrative of the Deep State that those who oppose the government responses to the coronavirus are terrorists.

Literally half the country is made up of people the government wants to call “terrorists.” It's the myth of “Y'all-Qaeda,” the myth that anyone who likes pickup trucks and barbecues must be a domestic terrorist. I'm sorry, folks, but it's just not the case. As a real journalist, someone who doesn't just say every day that the government should become larger and more powerful without limit, it's clear to me what's going on. It only remains for you to do your homework and see that the ones who have the means, motive and opportunity to orchestrate the majority of the shootings we've been seeing in recent years are the ones who are working so hard to make America a police state, a brutal dictatorship.

There will likely be, in the wake of Monday's shooting, a media push for police to be the ones to

enforce masks at the door of grocery stores, etc. And we all know what the mask is: a placeholder for the vaccine. They have a goal and they don't have scruples of conscience about murdering people in order to achieve it.

Merck put Vioxx on the market, knowing it would kill a lot of people. It killed more Americans than the Vietnam War, perhaps far more. After the opioid crisis, our nation is expected to have amnesia and say, "Well, yesterday, pharmaceutical companies making pills were corrupt, greedy fraudsters. We all know that. But today, they're making vaccines, so they're angels."

Thankfully, I put out 867 flyers from the Weston A. Price Foundation about the dangers of the coronavirus vaccinations door-to-door here in Oregon. I also handed out a good number of them to people in my daily life and sent thousands of emails with the flyer attached. It's people like me that the government wants to call "terrorists," and that is the real meaning of that lady driving her car into a tent and that man shooting someone on Monday. Their activities do not resemble activism, an activity which, for the sincere, is an off-shoot of caring and concern.

I don't know how they do things in Georgia, but where I come from, people don't think their neighbors are terrorists just because the government-approved media says so. Remember, folks, the media was supposed to be the Fourth Estate, the watchdog of the government. That's what my parents' generation was taught. There is no question that the media is now an appendage of the government (and it wasn't long ago when a proposal was stricken down in Canada to make the media government-approved in an openly-revealed way as our US media is in a covert way).

If you folks don't believe we have been lied to as much as I'm asserting, you should watch the highlights reel video (<https://www.centerforhealthsecurity.org/event201/videos.html>) from Event 201, which was put on by Johns Hopkins, the Bill and Melinda Gates Foundation, a "former" CIA officer, and the World Economic Forum (which is a partner of the UN). They did a tabletop simulation of a global coronavirus pandemic just before it was announced in "the news" and they planned every government response that we've seen thus far (with the exception of places like South Dakota, G-d bless them). They planned for school closures, travel restrictions, censorship of anti-vaccine activists, and for everything else we've seen. In that highlights reel video, you'll be shocked to discover they admit they don't want to do limited internet shutdowns to quell panic, because that might cause people not to trust their government. I think you can afford to spend about 12 minutes watching that highlights reel to confirm this for yourself. Avril Haines is the "former" CIA officer who was at Event 201. There is a theme emerging here, and I think it's summed up pretty well with this quote:

***"Only science which has lost faith in itself must use power instead of reason to convince others."***

—Nicholas Von Hoffman, KNX Radio, March 3, 1977

But I guess they thought limited internet shutdowns wouldn't be a very convincing tactic.

World Economic Forum now says, in their new book called *The Great Reset*, that the global coronavirus pandemic is an opportunity for a "great reset of the capitalist economy". Isn't it interesting that communists, for the most part, all have one thing in common? They all live in the United States. It's easy to show that World Economic Forum has a goal of producing communism. All you have to do is watch their video about their eight predictions for the year 2030. One caution: there is extremely immodest footage of a woman in a bathing suit at the very end of the video, so I'd recommend that you

have a female investigator watch their video, which is well under two minutes long and produced an enormous public backlash: <https://www.facebook.com/worldeconomicforum/videos/8-predictions-for-the-world-in-2030/10153920524981479/>

Prediction #1: "You'll own nothing. And you'll be happy."

I think a government that intentionally collapses its economy in order to get everyone on the dole is well on its way to fulfilling that one, along with the other seven predictions made there.

If for some reason you still don't think we could have been lied to that much, you need to go ahead and watch *Blueprint for Truth* by Richard Gage, AIA of Architects & Engineers for 9/11 Truth. This is the best and simplest introduction to the most easily-proven facts about what really happened that day. If you spend two hours on that, you'll never wonder again. You'll know that two planes didn't cause three enormous skyscrapers (WTC towers 1, 2 and 7) to collapse into their own footprints like houses of cards. The good news is that you don't even have to buy that DVD in order to watch it; they generously made it free at their channel on the YouTube:

Video: "9/11: Blueprint for Truth-The Architecture of Destruction-114min." uploaded by the YouTube channel AE911Truth

URL: <https://www.youtube.com/watch?v=0QgVCj7q49o>

As shown in my book, in Chapter 2: THE FIRST STEP, the FBI considered the work of AE911Truth/Richard Gage to be substantial. But that doesn't mean they did anything about it. The FBI now appears to be nearing the levels of corruption we see at the CIA. Hopefully, GBI will be much better than that, and will take to the task of investigating the real criminals behind the mass shootings, etc. like a duck to water.

I am perfectly aware that the topic of 9/11 may seem, at first glance, to be irrelevant, but:

(1) If you know we've been lied to this much, the rest of what I've mentioned in this letter becomes plausible even for the newbie, and (2) We can see that the national security apparatus really was intended right from the start to go after the mythical "Y'all-Qaeda."

I think the Deep State has been laughing at the FBI and local law enforcement for mopping up the mess after their operations. My advice is not to be part of the problem, not to be among those who are just cleaning up the mess without finding the source of the problem. Show that you have a spine and be good Americans rather than just pretending, "Oh, no, that could never happen here," which surely was the motto of the Germans before the days of Hitler.

If you find any typing errors in this letter, it's because I have to get back to work and I don't have time to make this the most eloquent or polished letter. But if you write back, I'm very happy to provide further supporting documentation for my claims. That said, I've given \*plenty\* for you to get started with.

You might also wish to remember Einstein's words here:

*"Condemnation without investigation is the height of ignorance."*

—Albert Einstein

Finally, the reason why our great country is now living under a dictatorship (one that's getting worse each day) is because America turned its back on G-d, and if you want to get right with G-d, I'd suggest talking with an Orthodox rabbi (whether you're a Jew or a non-Jew—I'm a non-Jew).

Thank you for your consideration.

A Noahide (a righteous Gentile who receives instruction from the Orthodox rabbis),

John
